

PRODUCT TRAINING GUIDE

Tranquil Infused Toothpicks are the newest and most effective sublingual delivery device, delivering up to 100% of active ingredients.

With our patent-pending process, we can load each pick with up to 55 mg of active ingredients. Our delivery platform is both sublingual and ingestible.

FIRST THINGS FIRST

“What’s that buzz? You’ll notice a slight tingle while using our infused toothpicks. This tingle is produced by our signature ingredient Spilanthol, also known as jambú or “the toothache plant”. Jambú has been used for centuries as a mild anesthetic.

Jambú (in combination with our base proprietary blend) is responsible for generating saliva and opening the entire oral cavity- cheeks, tongue and lips. This allows the active ingredients (cannabinoids) to immediately enter the bloodstream through the vessel-rich tissues in the mouth, enabling the fastest and most efficient sublingual onset. Through our enhanced application, your entire body will feel the therapeutic effects.

JAMBÚ
OLEORESIN

INFUSED TO THE CORE

Ingredients and flavors are entirely equally distributed and penetrate every layer of the toothpick.

HOW TO USE

1

Suck on one end of the pick for 5-6 minutes. Flip and repeat.

2

Chew slightly to imprint your teeth on the pick.

3

When flavor starts to fade, chew to release remaining ingredients.

FEATURES

SLEEK + DISCREET

Use around friends & family, at work, or when traveling.

MICRO DOSE

Stop & start. It’s wood. It will dry and soften all over again.

FAST ACTING

Sublingual: 10-12 min.
Ingestible: 20-25 min.

SUGAR FREE • ZERO CALORIE • GLUTEN FREE • VEGAN + KETO FRIENDLY
